

OMNIDIRECTIONAL ANTENNA

OUTDOOR MOUNTING

ANT868-O8

This antenna is designed especially for an application with a set of radio modems in data transmission systems. It provides a big signal gain at the reception. Omni-directional radiation allows it to be used in point-to-multipoint systems.

Electrical characteristics

Bandwidth	860 - 870 MHz
Gain	8 dBi max
Impedance	50 Ω
Max Power	50 W

Mechanical characteristics

Length	1473 mm
Composition	White fiberglass
Diameter	70 mm
Weight	800 g

About

Application	Indoor / Outdoor
Certification	CE; FCC; RoHS

8 dBi antenna

Omnidirectional

Shipped with a mast mounting kit

RF connector

Vertical polarization
